GUIDINGCARE® PEDIATRIC POPULATION HEALTH

Altruista Health offers standard and enhanced tracking and reporting to meet federal Early and Periodic Screening, Diagnostic and Treatment (EPSDT) requirements in Medicaid. Health plans using this module can be assured they are compliant with quality measures for assessing developmental milestones, screening and diagnosing health issues, and meeting vaccination schedules. GuidingCare Pediatric Population Health accommodates state-specific assessments, such as those for screening lead levels.

ADDRESS COMPLIANCE FOR THESE HEDIS MEASURES

- Well-child visits in the first 15 months of life
- Well-child visits in the third, fourth, fifth and sixth years of life
- Adolescent well-care visits
- Weight assessment and counseling for nutrition/physical activity for children/adolescents
- Childhood immunization status
- Immunizations for adolescents
- Lead screening in children
- Child and adolescent access to primary care practitioners
- Annual dental visit for children

GAIN GREATER TRANSPARENCY

- Meet state-specific requirements in screenings, immunization and more
- Reduce downstream expenses by providing proactive care
- Gain greater data transparency at member and population level, including for immunization and service compliance
- View EPSDT services and deploy bulk mailings right from the Measures dropdown menu
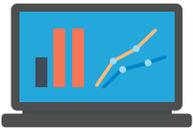

IMPROVE WORKFLOW AND SATISFACTION

- Eliminate tedious, error-prone methods of tracking
- Free up staff for higher-value work
- Give care managers consolidated view of members assigned to them
- Eliminate duplicate systems, spreadsheets and vendors
- Build proactive, positive relationships with providers
- Deploy workflow tools for bulk letter campaigns to members and providers with ease
- Efficiently drill down into specific data aligned to quality measures using advanced sorting and filtering

GUIDINGCARE® PEDIATRIC POPULATION HEALTH

STREAMLINE TASK INTERFACE AND PERFORMANCE

- Scans membership data regularly to flag members under 22 years of age

- Generates table-view data in GuidingCare Care Coordination and Population Health modules

- Offers a dedicated EPSDT tab in both Care Coordination and Population Health for one-click access to member-specific dashboard showing completed and recommended visits

- Displays status of visits, prior claims missed and completed, recommendations and timetables

- Prompts care coordinator on topics to discuss with families

- Allows detailed sorting, filtering, viewing and data drill-down by service or member on Population Health dashboard

- Generates bulk letters campaigns targeting specific EPSDT needs with minimal navigation

- Allows providers to mark services as completed directly from the Population Health module – no need to wait for a claim
